TikTok and Instagram account plan

For TikTok **@howelljnr** and Instagram **@howelldevs** (linked in Metricool). Written 31 Oct 2026, the day before launch.

Where things stand

- Metricool was connected this morning, so it has no history for either account yet. Past views, followers and top posts will show up once it backfills (usually within a day or two). Until then this plan is based on what we already know: face-to-camera videos do best on your TikTok, and posts with real screenshots beat generic graphics.
- Metricool can schedule and publish posts, but it **cannot edit bios, names, profile photos, links or highlights**. Those changes take you about 10 minutes in each app, using the copy below.
- The business-fixes carousel is already scheduled for today at 10:00 on TikTok, Instagram and Facebook.
- Both accounts carry Howell's personal handle. That is a strength: people follow people. The plan treats them as **founder accounts** that sell Bitvora Stores, while @bitvoratechh stays the company page.

Profile fixes (do these today)

TikTok @howelljnr

- **Name:** Howell | Bitvora Stores
- **Bio (80 characters max):** I build online stores for Naija businesses 🛍️ Get yours from ₦2,500 👇
- **Link:** stores.bitvoratech.com. If TikTok doesn't show a website field yet, switch to a Business account (Settings > Account > Switch to Business Account), which usually unlocks it. Otherwise put the URL in the bio text.
- **Profile photo:** a clear, smiling photo of Howell's face, not the logo. Faces get more follows on a personal account.
- **Pin 3 videos:** 1) the sign-up video, 2) the business-fixes carousel, 3) a 30-second "who I am and what I'm building" video (script below).

Instagram @howelldevs

- **Name (searchable, 30 characters max):** Howell | Online stores & web

- **Bio (150 characters max):** Founder @bitvoratechh 🇳🇬 I help Nigerian businesses sell online with their own branded store WhatsApp orders · Naira prices 50% off your first month 👇
- **Links (Instagram allows 5):** 1) app.bitvoratech.com/signup, titled "Get your store, 50% off" 2) stores.bitvoratech.com, titled "See how it works" 3) bitvoratech.com, titled "Custom websites"
- **Contact button:** WhatsApp on +234 911 244 9545.
- **Category:** Entrepreneur (or Web Designer).
- **Highlights (navy and orange covers):** Start here · How it works · Pricing · Stores · Reviews · Custom sites. Fill them from the existing launch graphics and the Status images (06 and 09).
- **Pin 3 posts:** the same three as TikTok.

What to post

One piece of content goes to both accounts (TikTok first, Instagram as a Reel or carousel the same day). Aim for **5 posts a week**, roughly 4 helpful posts for every 1 that sells.

Pillar	What it looks like	Share
Founder story	Howell to camera: why he built it, what launch week is like, wins and mistakes	30%
Product demo	Screen recordings: build a store, add a product, Post to Status	25%
Business tips	Carousels: selling on WhatsApp, pricing, trust, photos	25%
Proof	Real merchant stores, reviews, before and after	10%
Offer	50% off first month, sign-up link	10%

Best times (Metricool, Lagos time): weekdays at 10:00 or 18:00, strongest on Wednesday and Thursday. Weekends at 10:00. These are Metricool's general estimates until your own data arrives.

First two weeks

Most of week one uses things already made. Items marked **film** need Howell on camera for about 2 minutes each.

Scripts to film

Pinned intro (30s): "I'm Howell. I run Bitvora Tech in Lagos. For a year I watched small businesses lose orders in their DMs: 'how much?', 'send the price list again'. So I built Bitvora Stores. Your own store, your brand, one link, orders straight to WhatsApp. I'm

sharing the whole journey here. Follow along."

Why I built it (45s): Open with "Your customers shouldn't have to ask 'how much?'." Tell one real story of a business you helped, show the store on screen, end with "Link in bio if you want one. First month is half price this week."

3 WhatsApp mistakes (40s): 1) No prices, so every chat starts with "how much?" 2) Sending 20 photos instead of one link 3) No proof you're real (no reviews, no verified badge). "Fix all three with one store link. I'll show you how."

Filming tips: phone at eye level, near a window, first sentence on screen as text, under 60 seconds, captions on.

Daily 20-minute routine

1. Reply to every comment within the first hour after a post goes up. Early replies push the post to more people.
2. Leave real comments on 10 Nigerian small-business accounts (fashion, beauty, food, crafts). Those owners are your buyers.
3. Answer DMs with the scripts in the outreach kit.
4. Repost each new post to Story and WhatsApp Status.

How we'll measure it

I'll check Metricool weekly and report followers, views, profile views and link taps for each account, plus sign-ups by source code (IG, TT). Reasonable two-week targets from a small start: **+100 followers on TikTok, +50 on Instagram, 10 posts published, and the first 3 sign-ups from social.**

What I need from you

- Make the profile changes above, or send screenshots of both profiles now and I'll tailor the copy to what's there.
- Say yes and I'll schedule week one (1 to 7 Nov) in Metricool with captions, so it publishes on its own.
- Film the three short scripts when you can; send the clips and I'll edit them.
